

Hi! I'm Ally Palanzi.

I'm a principal front-end engineer with a passion for design, accessibility, inclusion, and ice cream. Currently, I work on the Core Front-End Platform Team at Stitch Fix.

EXPERIENCE

Principal Front-End Engineer, Stitch Fix

AUGUST 2018 – PRESENT

Lead Front-End Engineer II February 2020 – September 2022

Lead Front-End Engineer I August 2018 – February 2020

- Partner with Design Platform to build a shared React component library for use across all consumer facing applications, increasing developer and feature velocity
- Led the front-end effort for introducing GraphQL to a legacy e-commerce application
- Contributed documentation and worked alongside other teams implementing GraphQL features on the front-end to encourage adoption
- Collaborated with business partners to launch and A/B test marketing landing pages to improve conversion
- Rebuilt the marketing website platform to support internationalization for a new UK business line using a custom built React static site generator
- Created an internal CMS-like tool for the marketing team to build and manage SEO pages from templates
- Built shared tooling configurations, advocated for linting adoption

Software Engineer IV, Nava PBC

APRIL 2017 – JULY 2018

- Worked as the technical lead on the HealthCare.gov marketplace application that serves over 30 million Americans
- Worked within complex relationships with stakeholders and other contract teams within the HealthCare.gov ecosystem
- Worked closely with engineers, designers, and product to build a user-centered version of HealthCare.gov using React and Node
- Contributed to a React component library used across the Center for Medicare & Medicaid

Senior Front-End Engineer, Vox Media

NOVEMBER 2015 – MARCH 2017

- Collaborated with a cross functional team to implement new features across Vox's content management system platform (Chorus)
- Defined the architecture and tooling for the front-end of the Chorus platform
- Contributed to our front-end workflow and guidelines across our team
- Unified 8 web brands (300+ websites) onto a single core platform
- Mentored teammates and engineers across departments; led a monthly skill-share
- Created guidelines and advocate for Accessibility within the company

Front-End Engineer / Designer, Vox Media

MAY 2012 – NOVEMBER 2015

- Contributed to foundational design exploration and prototyping for a new Vox Media brand and website, Polygon
- Worked with editorial staff and a designer on developing interactive longform feature layouts for Polygon and other Vox Media verticals
